

Dear FCC,

I do not know if people in your organization realize it or not, but the deregulation of the communications industry is just a tad off of what the Nazis did in the 1930's. In their case, one by one, those not in favor of the Nazi ideals were purged (we call it "murdered") and new management took over. It did not happen all at once, but slowly and deliberately. It wasn't pretty.

Once one or two organizations control the news, all bets are off on your freedom and mine. Your personal taxes will rise, unemployment will rise, riots will occur, and your own kids will be at the mercy of events out of control, such as a lousy economy from hell.

I am certain that you do not want to be the ones that are mentioned in future history books as being "the guy who turned a free society into a fascist-ruled country." Please do not allow these changes to take place. This is not a kid's game. But it will affect your kids...negatively.
